GROUP 3600

Sir:

RESPONSE

In response to the Office Action of January 8, 2003, applicant's agent wishes to thank the Examiner for reviewing this matter with her by telephone. Applicant's agent wishes to confirm herein that the Examiner indicated that Figure 9 should be grouped with the Figures of Species II.

Applicant requests that the application be amended as follows:

In the Disclosure:

Page 9, line 5, cancel "3" and insert therefore -7--, such that the third paragraph reads as in the fully amended paragraph set out on the attached page.

REMARKS

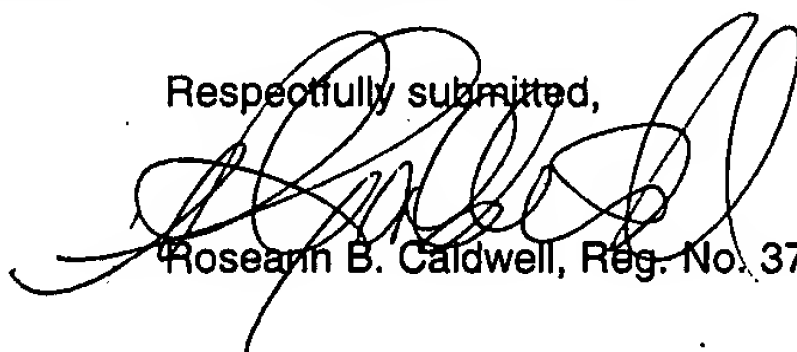

The reference to Figure 9 in the specification has been amended to more correctly describe the drawing.

With respect to the election, applicant elects without traverse Species I identified by the Examiner as shown in Figures 1 to 6. Applicant submits that claims 1 to 28 are readable on Species I.

This election is made without prejudice to adding additional claims to a species generic to any of the above-noted claims which are held allowable, and to filing a divisional application at a later date directed to the subject matter of any non-elected claims, if necessary.

Favorable consideration is respectfully requested.

Respectfully submitted,
